

# Balance valve

The balancing valve provides dependable hydronic system balance control utilizing corrosion resistant materials and Made in the USA construction.

## Features

- 1/2" or 3/4" solder connections
- 100% factory tested
- Easily adjustable
- Dezincification resistant cast bronze body

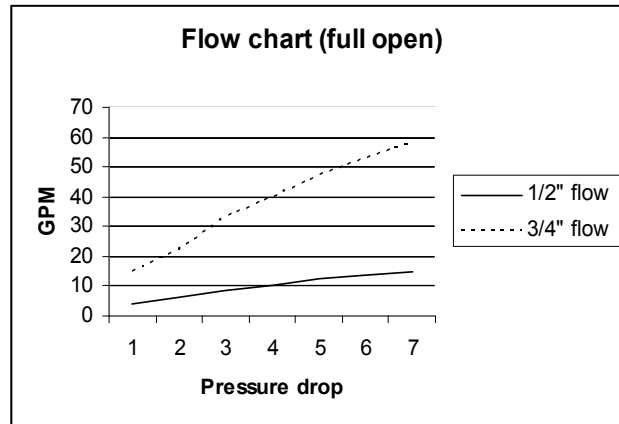

## Performance rating

- Maximum operating pressure: 300 psig
- Maximum operating temperature: 250 °F

## Specifications

Part name	Material
Packing washer	11-gauge brass
O-ring	EPDM rubber
Stem	Brass, ASTM B16
Gland screw	Brass, ASTM B16
Valve body	Cast bronze, ASTM B584

## Capacity

## Dimensions

Size	A	B	CV	Wt. (lb.)
1/2"	2.13	1.06	4	.30
3/4"	2.75	1.37	14	.53
