The Fin Express program has returned

By popular demand, Zehnder Rittling has brought back the Fin Express program.

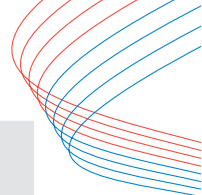

This program is a quick ship for specific rough-in components:

- Copper-aluminum element
- Wall mounting brackets
- Snap mounting channel

These orders will be scheduled for 3 days after order receipt.

All at standard pricing, there is no premium cost.

Please see the reverse for full details.

Fin Express program features:

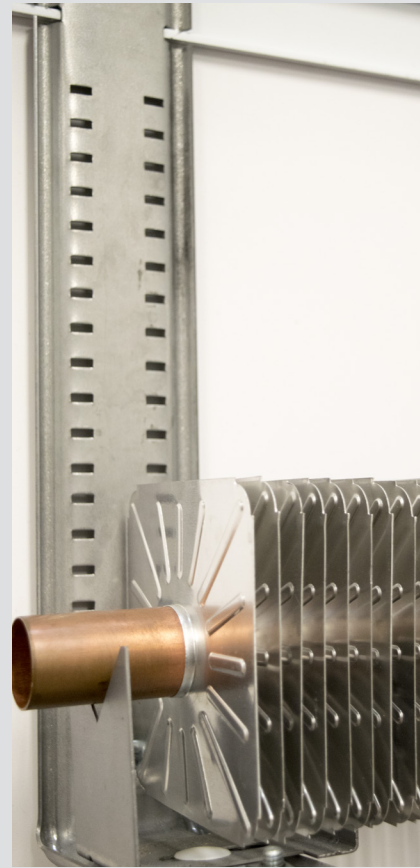

- Up to 500 ft of copper-aluminum element.
- Up to 200 standard size wall mounting brackets.
- 550 ft of standard color snap mounting channel.
- Optional brackets (nylon silencer, roller bearing) also available.

The following are excluded from the Fin Express program:

- Pedestal brackets. Contact the factory for availability.
- Full back plate, offset channel and custom brackets, including height changes.
- Steel element is excluded.

When placing your order:

- Standard discounts apply, Fin Express orders are not available for additional discounting.
- Fin Express must be requested through order comments. Unless requested, orders will be scheduled per published lead time.
- For any order over 500 ft please contact the factory for availability.
- No order changes will be allowed.
- Orders cannot be combined with any other products.
- Fridays are not included in ship date calculations due to 4 day factory operation.
